NHS Near Me

NHS Near Me is a new video consulting service which aims to provide outpatient consultations as close as possible to home. NHS Near Me appointments take place either at your home or at a local NHS clinic. You will see your consultant or other specialist by video link. In some clinics, there may be a health care support worker or other NHS staff with you.

To use this service, you must have received an appointment letter from NHS Highland.

Attend my appointment or make a test call

If you are ready to attend your telehealth (video) appointment or you want to make a test call before your appointment is due, click here (please ensure you are using Google Chrome on Windows and Android devices, or Safari on Apple devices):
