

## **How can data guide the development of digital skills ,workforce recruitment, retention and resilience?**

---

Anett Ruszanov – Policy and Programme Director  
European Health Management Association

4 October 2022

# Policy context

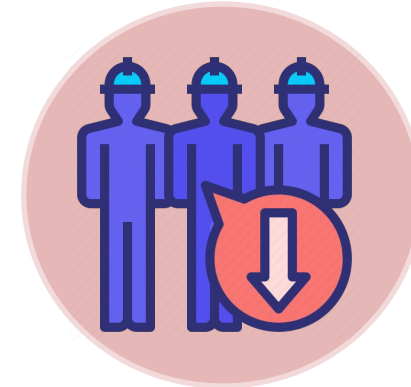

Need for data on health workforce availability, density & needs

Quickly available data is key for health workforce planning & decision-making

EU countries have different level of maturity in health workforce planning

Need for strategies for retention and recruitment to address workforce shortages

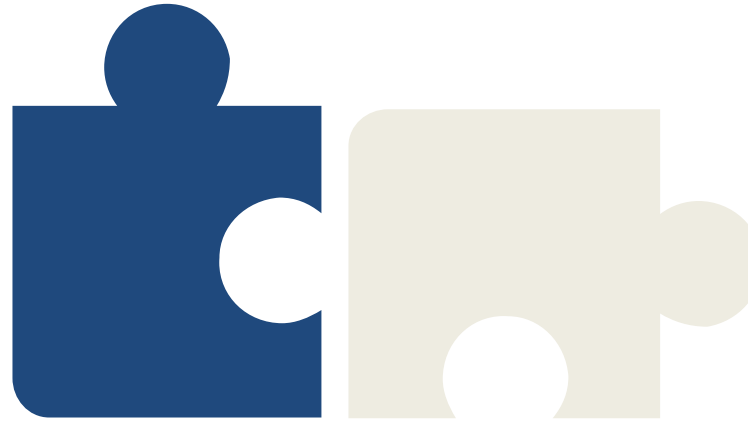

Skills gaps and mismatches are increasing

# Blueprint Alliance for a Future Health Workforce Strategy on Digital and Green Skills

Develop the first ever  
reskilling and  
upskilling strategy

Gather skills  
intelligence,  
creating a skills  
monitoring tool

Launch of a Pact  
for Skills  
partnership

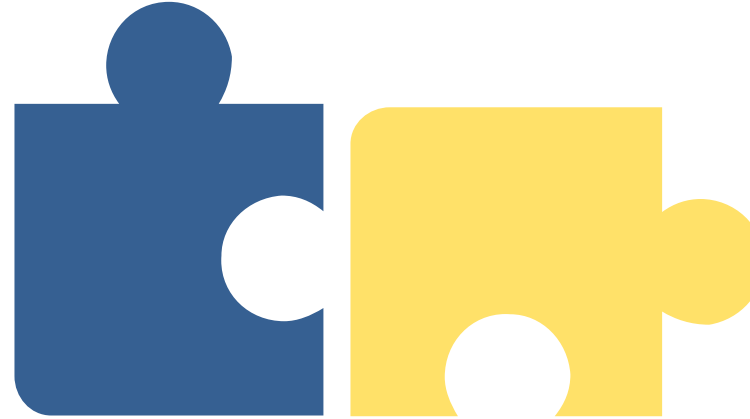

Develop and pilot  
education curricula  
and programmes

# European Platform for VET Excellence in Healthcare

Create Regional Vocational Excellence Hubs in 7 European regions

Increase quality and attractiveness of vocational training & lifelong learning

Ensure the provision of future oriented skills

Help health professionals embark on the digital transformation
