Agenda

Before the workshop

What are the barriers/enablers encountered by digital health today?

What are the uncertainties (facilitating or hindering) that may occur in the future?

During the workshop (90 min)

- **Ideation.** What digital health could look like if there were no constraints, plenty of resources, and no restrictive laws? -> Mini-scenarios
- **Hands-On.** What are the different characteristics of the mini-scenarios and which would give the best results in terms of increased population coverage, improved living conditions, improved social determinants of health, etc.?

Join us to share your vision and influence the future of the digital health sector in Europe!
