

# Early Access to Reimbursement for Digital Medical Devices (PECAN) in France

*November 15th, 2023*

10:45-11:45 - Revolutionising Healthcare: Leveraging Reimbursement Models For Uptake Of Digital Health Solutions

Digital Health Delegation (DNS)  
French Ministry of Health and Prevention

# The Digital Health Roadmap 2023-2027

Click [here](#) to have a look at the new digital health roadmap 2023-2027 launched the 17th May 2023

# The Digital Health Roadmap 2023-2027 in 4 axes, 18 priorities and 65 objectives

This roadmap is the result of several months of **consultation**, resulting from a **18-stage tour of French regions**.  
The roadmap is based on the values of **ethics**, **sovereignty** and **sustainability**.

**Axis 1 – Develop prevention services and allow patients to control their own health**

**Axis 2 – Use the benefits of digitization to optimize daily work of healthcare professionals and enhance the quality of patient care**

**Axis 3 – Improve access to healthcare**

**Axis 4 - Deploy an enabling environment to foster digital health deployment and innovation**

# The French Digital Health landscape at a glance

## Digital Health Delegation (DNS)

Oversees all **digital healthcare transformation projects** in France on the **national level**, based on three fundamental pillars: **ethics, security and interoperability**

Délégation ministérielle  
au numérique en santé

## National Digital Health Agency (ANS)

The agency is **supervised** by the **Digital Health Delegation** and acts as its "operational arm". The ANS ensures the deployment and respect of **digital health standards and referentials**.

## National Health Insurance Fund (CNAM)

Defines the national **health insurance policy**. Its role is to monitor, coordinate and advise actions of primary health insurance funds (CPAMs) and the 5 general social security funds.

## Health Data Hub (HDH)

Unique gateway to facilitate access to French **health data for public interest research and innovation**.

## 15 Regional Support Group for the Development of e-Health (GRADEs)

Ensures the **urbanization, interoperability and security** of health information systems

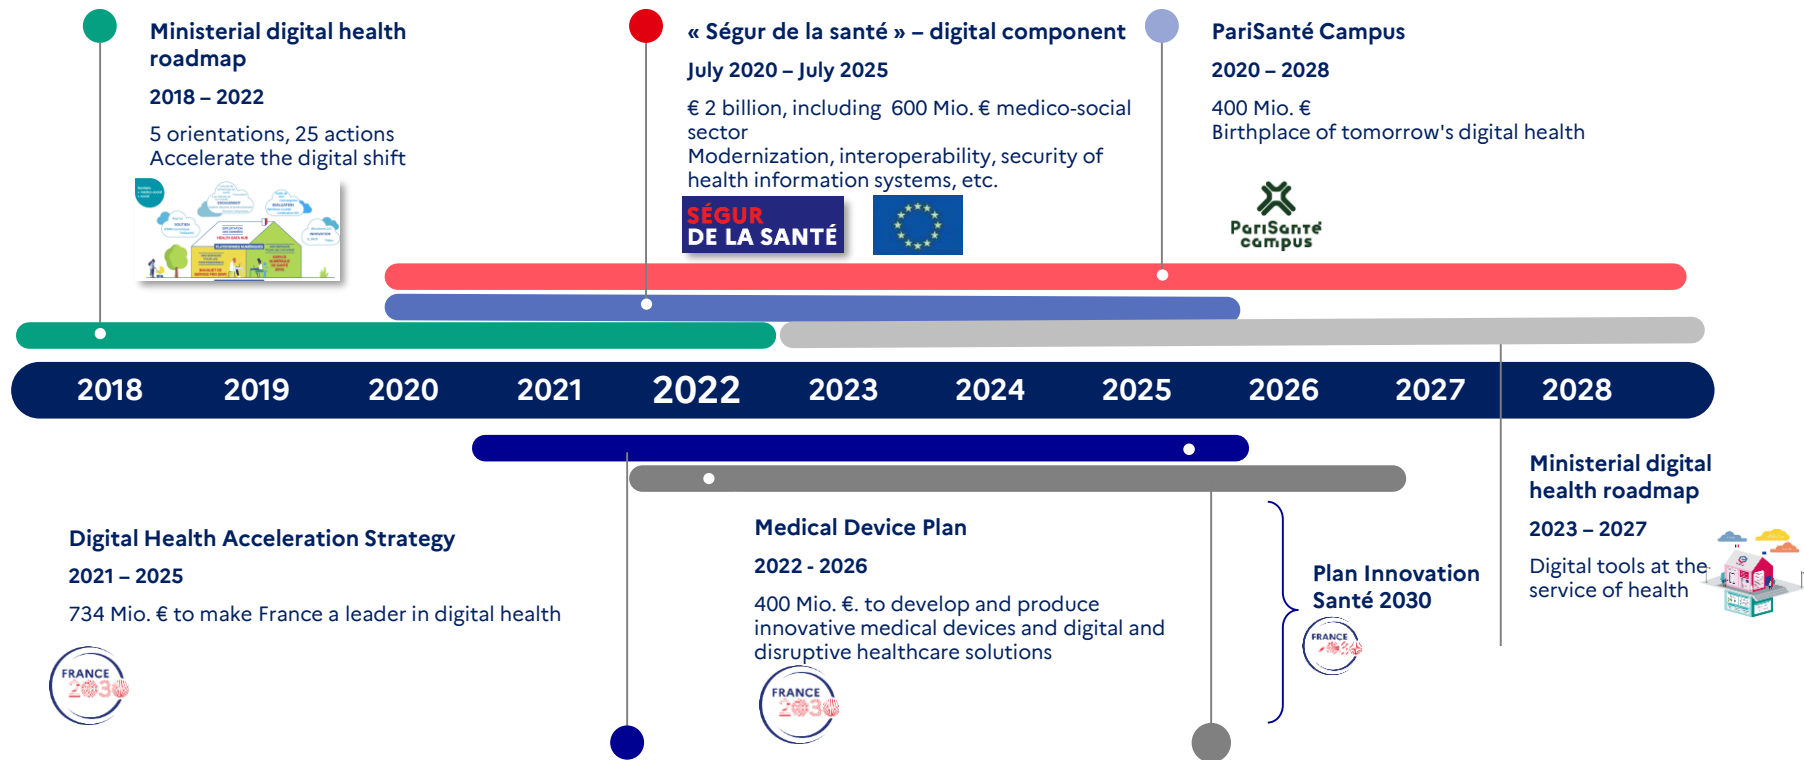

## 18 Regional Health Agencies (ARS)

Provides **unified management** of health care in the regions

**Regional/ local actors:** hospitals, universities, healthcare professionals, actors of the digital health ecosystem

# National digital health strategies and pluriannual funding programs

# Digital Health Acceleration Strategy 2021-2025

A national funding program co-constructed by and for the health digital ecosystem

## An interministerial strategy for 2021-2025

To make France a leader in digital health

**PREMIER  
MINISTRE**

*Liberté

Fraternité*

## Co-constructed with the digital health ecosystem

The result of a broad public consultation

**429** replies

**50** qualitative interviews

**6 months** of inter-ministerial work

Collective preparation for calls for projects and expressions of interest

**12** webinars

**More than 120** meetings

## Support the actors with useful tools

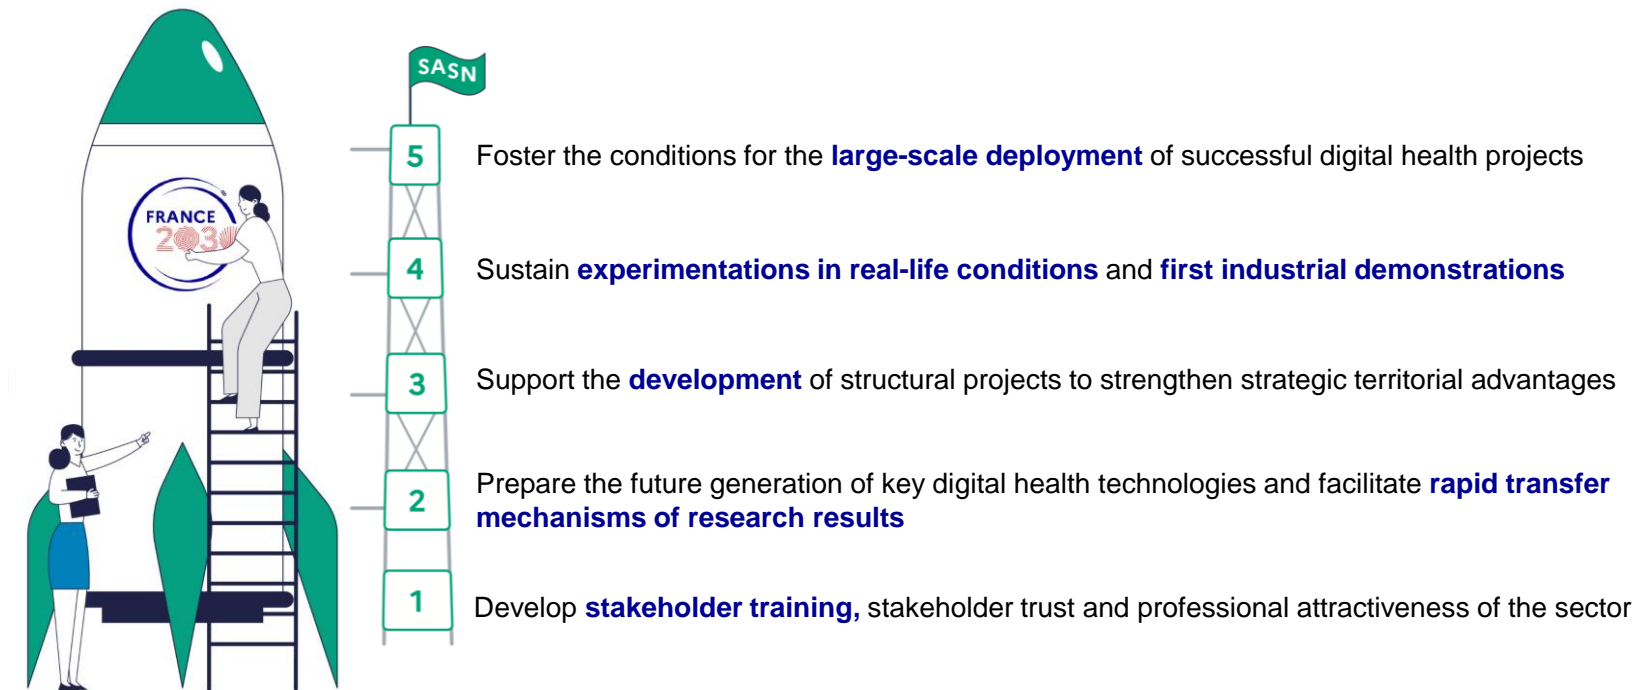

A national portal to support digital health entrepreneurs

# Digital Health Acceleration Strategy 2021 - 2025

A strategy with € 734 million to support all levels of a digital health project cycle

# PECAN, an innovative approach to derogatory reimbursement of digital medical devices (DMDs)

## Overview

- New **one-year transitional and temporary reimbursement** access scheme
- Launched in April 2023

## Scope

- **Innovative DMDs for individual use**
  - for therapeutic purposes (DTx)
  - remote Monitoring (TLS)
- With **initial elements to assess the potential benefits of the solution**
- **Running studies** with results available **before the end** of PECAN

## Why?

- **Rapid access** to digital health innovations for patients
- Operational deployment in parallel of procedures **to get a standard definitive reimbursement**

## How?

- **Parallel evaluation** process by **HTA Agency (HAS) & Digital health agency (ANS)**
- **Authorisation decision** by the **Minister of Health**
- **Duration: 3 to 4 months** after candidate submission of file

# PECAN, a new fast-track to facilitate the launch of digital health innovations

## 1 year

Pre-reimbursement at fixed price  
and a springboard for innovators  
to  
obtain generalized reimbursement

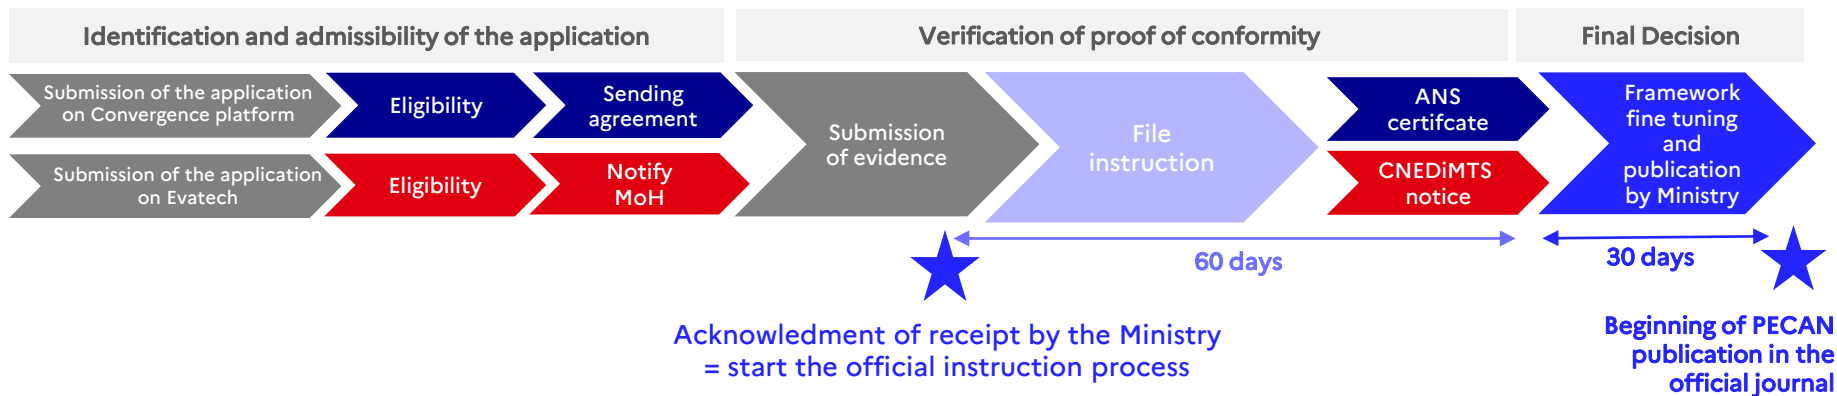

## Facilitated application

through two simultaneous applications  
(medical/scientific and  
security/interoperability)  
and simplified evaluations

# PECAN – Step by step

## Steps to benefit from early reimbursement scheme

**Caption:**

# Focus on the requirements of the DMN Interoperability and Security

 The repository is composed of different **sections of requirements**:

## National Health Identity

Securing patient identification

## Pro Health Connect

Securing HCP Authentication

## Health Directory

HCP directory

## GDPR

GDPR data privacy

## Data portability

Access to health data (interoperability)

## Electronic identification

HCP access Patient access

 The requirements of the repository are **derived from the doctrine of digital healthcare** and the various ANS **benchmarks**.

 Documents available on the Digital Health Agency portal for industrials:  
<https://industriels.esante.gouv.fr/produits-et-services/dispositifs-medicaux-avec-des-fonctions-numeriques>

# PECAN – after a year of reimbursement

## ● Towards a permanent reimbursement of **Digital Medical Devices (DMD)**

### ▪ Inclusion in the List of Reimbursed Telemonitoring Activities (LATM)

### ▪ Inclusion in the List of Products and Services qualifying for reimbursement (LPPR)

# PECAN and DiGA, two pioneering mechanisms in the EU

In Germany, the Diga Fast Track has enabled accelerated market access for certain categories of digital health applications

## Social Security Funding Law 2022 : Article 58 PECAN:

 **Therapeutic** (DTx) or **telemonitoring activities**

 Class I, IIa, IIb and III **HAS** (CNEDiMTS) and **ANS** evaluate PECAN applications

 **One-year transitional reimbursement**  
predefined fixed compensation  
Negotiated final price after 12 months (only for DTx)  
Telemonitoring prices are predefined (no negotiation)

## German Digital Healthcare Act DiGA Fast Track:

 **Therapeutic DMD** (DTx)

 Class I and IIa only **BfArM** evaluates Diga candidates

 **One-year transitional reimbursement**  
at manufacturer's price  
Negotiated final price after 12 months

 Other European countries are actively working to implement similar procedures

# “ G\_NIUS, a one-stop shop to save time for digital health entrepreneurs ”

Set up by the Ministry of Health and Prevention, the purpose of G\_NIUS is to **make life easier** for entrepreneurs in the digital health sector and **speed up the development of their solutions**

👉 [gni.us.esante.gouv.fr](https://gni.us/esante.gouv.fr)

## G\_NIUS services

Entrepreneurs are directed to the **right contacts** and have access to the **right information**, so that they can better **anticipate** the stages of their development.
