Who joined us in **2023**

ECHAlliance The Global Health Connector

...bring together a permanent community of stakeholders to develop a joint health agenda, aiming to address and find common solutions to regional health challenges

Match Need and Solution

The main benefit of working together in an Ecosystem is the multiplier effect of collaborating in our International Network of Ecosystems.

- **break down silos,**
- **transform healthcare delivery,**
- **create economic growth**

Thematic Innovation Ecosystems (TIE)

We have developed a brand new set of ECHAlliance Group Thematic Innovation Ecosystems that target cross-border themes led by our ecosystems and members to match need and solution and foster collaboration.

Housing & Health

Medicines Optimisation

Mental Health

Telemedicine & Health Inequalities

Skills for Health

Continence

Digital Health & Wellbeing

Green Health

Digital Health Data

Integrated Care

Women's Health

Healthy Ageing

Life Sciences

Health Procurement

Cancer

Our 4 Priorities

Green Health

We in Healthcare are a major polluter and so we need to decarbonise and own our problem.

Healthy Ageing

As the global population ages we need to look at solutions to help longevity and building quality into citizens lives.

Women's Health

Half the globe lacks equal investment in solutions for issues that affect women. Our goal is to radically change this.

Digital Health and Data

As digital health grows, essential tasks include data analysis. We'll explore AI, Secondary Data Use, and cross-continental Data Spaces.

ECHAlliance your preferred partner for international & EU projects

Our key competencies:

Stakeholders engagement	Exploitation of projects results	Communication, dissemination and outreach	End-user needs assessment
Strategic foresight and sustainability	Scalability & transferability plans	Focus groups, roundtables, events	Ecosystems building and strengthening
