Research

## About The Event

Transforming Women's Health through Science and Sustainable Partnerships co-hosted by the ECHAlliance and the Society for Women's Health Research (SWHR) is a program during the Science Summit United Nations General Assembly (UNGA80) this fall. This program is taking place in New York City, NY, USA on September 22, 2025 from 9:00am-4:30pm (EDT), within the three-day event, Assembly of World Leaders Transforming Healthcare in the Digital Era, convened by ECHAlliance-The Global Health Connector.

## Why Women's Health?

Women comprise approximately half of the world's population, yet their role in the global health care ecosystem is often underrepresented and inadequately considered. Women face unique challenges over the course of their lifespans, due to biological sex differences in health and disease, as well as sociocultural influences related to gender. Disparities exist across disease states and life stages that touch every race, ethnic group, geographic location, and socioeconomic status. A comprehensive strategy to advance research on women's health must be developed and implemented to address the global health gender health gap.

This series of sessions will discuss key developments and opportunities to advance women's health care and research, with a focus on:

- Addressing disparities in health conditions that disproportionately affect women
- The role of women in health care policies and decision-making
- Barriers to accessing preventive care and medical interventions to improve health outcomes for women
- Representation and leadership in the women's health workforce across a global landscape.

Participants of the program will identify opportunities for domestic and global collaborations and inform the development of a women's health research agenda in the Outcomes Report to the United Nations.

## What To Expect

- **Interactive Sessions:** Dive into a tapestry of keynote speeches, engaging panels, and intimate roundtables, each designed to spark dialogue and inspire action.
- **Collaborative Opportunities:** Join forces with leaders from diverse backgrounds, including government, academia, industry, and civil society, to forge partnerships that transcend borders.
- **Hybrid Format:** Ensuring no barrier to participation, our summit embraces a hybrid format, welcoming both in-person and virtual attendees.

## Anticipated Impact

- A shared understanding of the global women's health landscape, creating stronger networks committed to health care innovation and access.
- Concrete strategies to leverage digital technology for advancements in women's health and make collective pledges to further women's health initiatives worldwide.
- Join us in redefining the future of women's health and health care, making it more accessible, efficient, and equitable for all.

## Topics At The Forefront

- Discover innovative approaches to preventive care and healthy aging in women's health that can transform health care outcomes.
- **Harnessing AI and Big Data for Women's Health Innovations:** Explore the potential of AI and big data in revolutionizing women's health innovations, leading to personalized and effective health care solutions.
- **Crafting Regulatory Frameworks for Emerging Technologies to Address Disparities in Women's Health Research and Care:** Be part of shaping regulatory frameworks for emerging technologies that can bridge the gap in women's health research and care, ensuring equitable access and improved outcomes.
- **Strengthening Public Health through Digital Means Innovations for Women and by Women:** Contribute to the development of digital innovations that empower women and strengthen public health, fostering a more accessible and inclusive health care system.
- **Practical Steps to Implement Policy into Scalable Deployment of New Evidenced Products and Services:** Gain insights into practical steps for implementing policies that enable the scalable deployment of new evidence-based products and services in women's health.
- **Navigating Digital Health Policies and Governance:** Navigate the complex landscape of digital health policies and governance to ensure compliance and maximize opportunities for innovation in women's health.

## About The Hosts

**ECHAlliance** is the Global Connector for Digital Health connecting 78 Countries and 4.4 billion people. As a member organisation, ECHAlliance brings its global community together in a network of ecosystems that match need and solution, break down silos, transform healthcare, transfer best practices and lessons learned and create economic opportunities. We connect the healthcare dots across the globe. To learn more about ECHAlliance, view our [Capability Statement](#). Visit [www.echalliance.com](http://www.echalliance.com) for more information

**The Society for Women's Health Research (SWHR)** is a national nonprofit and thought leader advancing women's health through science, policy, and education while promoting research on sex differences to optimize women's health. Founded in 1990, SWHR is making women's health mainstream by addressing unmet needs and research gaps in women's health. The success of SWHR's science and policy programs is grounded in our ability to convene and leverage the knowledge of our interdisciplinary networks – diverse groups of researchers, clinicians, patient advocates, policy professionals, and other health care leaders with expertise related to specific diseases, conditions, or health topics that either exclusively, differently, or disproportionately affect women. Thanks to SWHR's efforts, women are now routinely included in most major medical research studies in the United States and more scientists are considering sex as a biological variable in their research. Visit [www.swhr.org](http://www.swhr.org) for more information.

## Why Sponsor?

- Increase your organization's visibility and awareness through sponsorship of key initiatives worldwide, supporting the SDGs and using these demonstrations to build global partnership and alliances.
- Establish your brand as a key innovator that has a leadership role to play in global innovation, including providing a global entry point of collaboration in multiple regions.
- Collaborate with key experts from diverse regions to promote a global entry point for collaboration.
- Join us in a multilateral dialogue on science and innovation in women's health research.
- Become part of the global development agenda. This event will bring together development agenda policymakers and demonstrate how science can contribute very constructively to the broader development agenda.

***Join us as a partner in September. Together, we can make women's health mainstream.***

## Global Sponsor

**\$50,000**

Position your organisation as a leading force in women's health and care innovation by joining us as a **Global Sponsor** at this prestigious event. This is a unique opportunity to demonstrate your thought leadership, enhance your brand visibility, and engage with key decision-makers across the health and care ecosystem

### Benefits

- **Speaker Participation** - Take centre stage offering an exceptional opportunity to showcase your expertise, share valuable insights, and influence the direction of important conversations within their industry. Through key-notes and panel discussions you can engage with other experts, exchange innovative ideas, and contribute to discussions on trending topics or emerging challenges.
- **Unparalleled Brand Exposure:** - Gain maximum visibility with your logo featured prominently on all event materials, both digital and print, as an esteemed Global Sponsor.
- **Post-Event Recognition:** Your logo published on the 'Outcomes Report' of the UNGA80 Science Summit.
- **Post-Event Resource:** Gain continued value from the event with access to the session recording. Whether you want to revisit key takeaways or share insights with your target audience, the recording is a convenient way to extend the impact of the session.
- **Exclusive Networking Opportunities:** Curated connections with senior leaders, policymakers, and innovators during the exclusive 'invitation only' networking lunch (three invitations).

## Strategic Sponsor

**\$25,000**

We invite you to take part as a Strategic Sponsor at this premier gathering focused on global collaboration and innovation. This is an unparalleled opportunity to showcase your brand, foster valuable connections, and demonstrate thought leadership in front of a diverse and influential audience.

- **Showcase Your Expertise:** - Participation in a panel discussion offering an exceptional opportunity to showcase your expertise, share valuable insights, and influence the direction of important conversations within your industry. Nominate one panelist or moderator and propose one other 3rd party panelist for potential participation (outside of sponsor organization, based on availability)
- **Brand Exposure:** - Gain maximum visibility with your logo featured on all event materials, both digital and print, as an Strategic Sponsor.
- **Post-Event Recognition:** Your logo published on the 'Outcomes Report' of the UNGA80 Science Summit.
- **Post-Event Resource:** Gain continued value from the event with access to the session recording. Whether you want to revisit key takeaways or share insights with your target audience, the recording is a convenient way to extend the impact of the session.
- **Exclusive Networking Opportunities:** Curated connections with senior leaders, policymakers, and innovators during the exclusive 'invitation only' networking lunch (two invitations).

*The number of sponsorships at each level is limited. For more details and to secure your participation, reach out to SWHR at [development@swhr.org](mailto:development@swhr.org).*

**The Global Health Connector**

**Society for Women's Health Research**

## Panel Speaker

\$10,000

Help drive innovation, and create lasting connections that will shape the future of healthcare globally

- **Participation:** Opportunity for one speaker to participate in panel discussion within the context of the theme
- **Brand Exposure:** - Gain visibility with your logo featured on all event materials, both digital and print as sponsor.
- **Post-Event Recognition:** Your logo published on the 'Outcomes Report' of the UNGA80 Science Summit.
- **Networking:** Connected with senior leaders, policymakers, and innovators during the exclusive 'invitation only' networking lunch (one invitation).

*The number of sponsorships at each level is limited. For more details and to secure your participation, reach out to SWHR at [development@swhr.org](mailto:development@swhr.org).*
